

# Human Health Countermeasures (HHC) Publication Tracking

LARONA SMITH, RN, MSN

HHC ELEMENT SCIENCE COORDINATOR

# Why Publish?

- ▶ Publications are a valuable component of HRP's growing evidence base.
- ▶ Increase tax payer benefit of NASA funded research
  - ▶ Educate the public about developments in spaceflight science.
- ▶ Potential terrestrial medical/health benefits and applications are shared.

# What are we looking for?

- ▶ Peer reviewed articles
  - ▶ If possible choose journals with higher impact factors
- ▶ Book chapters
- ▶ NASA reports

# Impact Factor (External and Internal)

- ▶ External: The impact factor (IF) of an academic journal is a measure reflecting the average number of citations to recent articles published in that journal.
- ▶ Internal: Within HRP, final reports and publications stemming from NASA-funded research are evaluated on a high/medium/low scale according to their contribution to closing our identified knowledge gaps.

# Publications in FY14

- ▶ Total Publications in FY14 40
- ▶ Total NASA TRs in FY14 3
- ▶ Average Impact Factor 2.72

## ▶ Impact to Evidence Report

- ▶ High 22
- ▶ Medium 19
- ▶ Low 5
- ▶ None 1

HHC Publications by Year (Total = 328)

## HHC Publications Average Impact Factors by Year (overall = 2.6 as of Dec-2014)

### HHC Publications Total Impact Factors by Year (overall = 649.8 as of Jan-2015)
